

Huldeblyk – Theuns Swanepoel

Diegene wat die Moonstone Investment Indicators al sedert Julie 2000 ontvang, mag dalk onthou dat ene Theuns Swanepoel die man agter die skerms was wat week na week seker gemaak het dat die syfers, tot op die sent, elke week korrek is.

We have always prided ourselves in the accuracy of our published figures, and delivery on time. In the past nearly 18 years, we were only unable to publish our annuity rate comparisons on a Monday on two occasions, both of which were due to technological problems. Theuns, and Deon du Toit, ably assisted by Anton van Rooyen, was never too sick to make sure you got your data on a Monday, and seldom after 14.00.

Theuns retired two years ago and sadly passed away last week.

Theuns se grafsteen sal, vir die meeste van ons, permanent in ons harte gegrafeer wees. Hy was 'n diamant. 'n Rowwe een, maar 'n opregte een.

Ons wat saam met hom gewerk het, sal Theuns altyd onthou as een van die belangrikste bouers van die waardes en werksetiek van Moonstone om 'n verskil te maak in die lewens van so baie mense.

Mag die syfers daarbo ewe mooi klop as hier onder ou grote.
